

Wireless LAN connection

Please note

- Turn off the air conditioner before setting up wireless connection.

Prior to setting up, please make sure your device is ready to connect. You may refer to the indoor unit LED table for guidance.

Check the indoor unit LED.

Wireless LAN connecting adapter lamp	Status
Blinks for one second	<ul style="list-style-type: none"> • The wireless LAN connecting adapter is ready to connect.
No blinking/no light	<ul style="list-style-type: none"> • The wireless LAN connecting adapter is disabled. • Malfunction in communication between the indoor unit and the wireless LAN connecting adapter. <p>Please refer to the troubleshooting guide or contact the store where you bought the air conditioner to request a repair service.</p>
Lamp stays lit	<ul style="list-style-type: none"> • The wireless LAN connecting adapter is connected to a modem/router.

Wireless LAN connection

For more information on the latest version of wireless LAN control, please refer to the above website.

Application software installation

- Before downloading the application software for installation, please read “**Configuration**” on [Page 7](#).

For Android phones

- 1) Open [Google Play].
- 2) Search using the application name:
[DAIKIN Mobile Controller].
- 3) Follow the on-screen instructions for installation.

For iOS phones

- 1) Open [App Store].
- 2) Search using the application name:
[DAIKIN Mobile Controller].
- 3) Follow the on-screen instructions for installation.

Setting

Connect the wireless LAN connecting adapter to your home network.

- The wireless LAN connecting adapter will communicate with the smart devices in your home network via a modem, router, or a similar device.

There are two options for connecting the wireless LAN connecting adapter to your smart phone or tablet:

- 1) Simple connection (WPS connection), if there is a WPS button on the router, [Page 36](#).
- 2) Access point connection (AP connection), if there is no WPS button on the router, [Page 37](#).
